Field	Details
Scenario ID	TC06
Scenario	Verify Logout Functionality
Test Input	
Expected Result	User should logout successfully
Actual Result	User logged out successfully
Status	PASS
Screenshot	Insert Screenshot
Defect ID	

Summary:

Studied the Login and Signup module of Automation Exercise, mapped testing activities to SDLC/STLC phases, and executed 6 test cases.

Conclusion:

Testing is a parallel process that begins early in the lifecycle, not just a final phase.
